# Progress Toward Goal

Low-income students and under-represented students of color represent a large portion of the UIA growth in graduates over baseline.

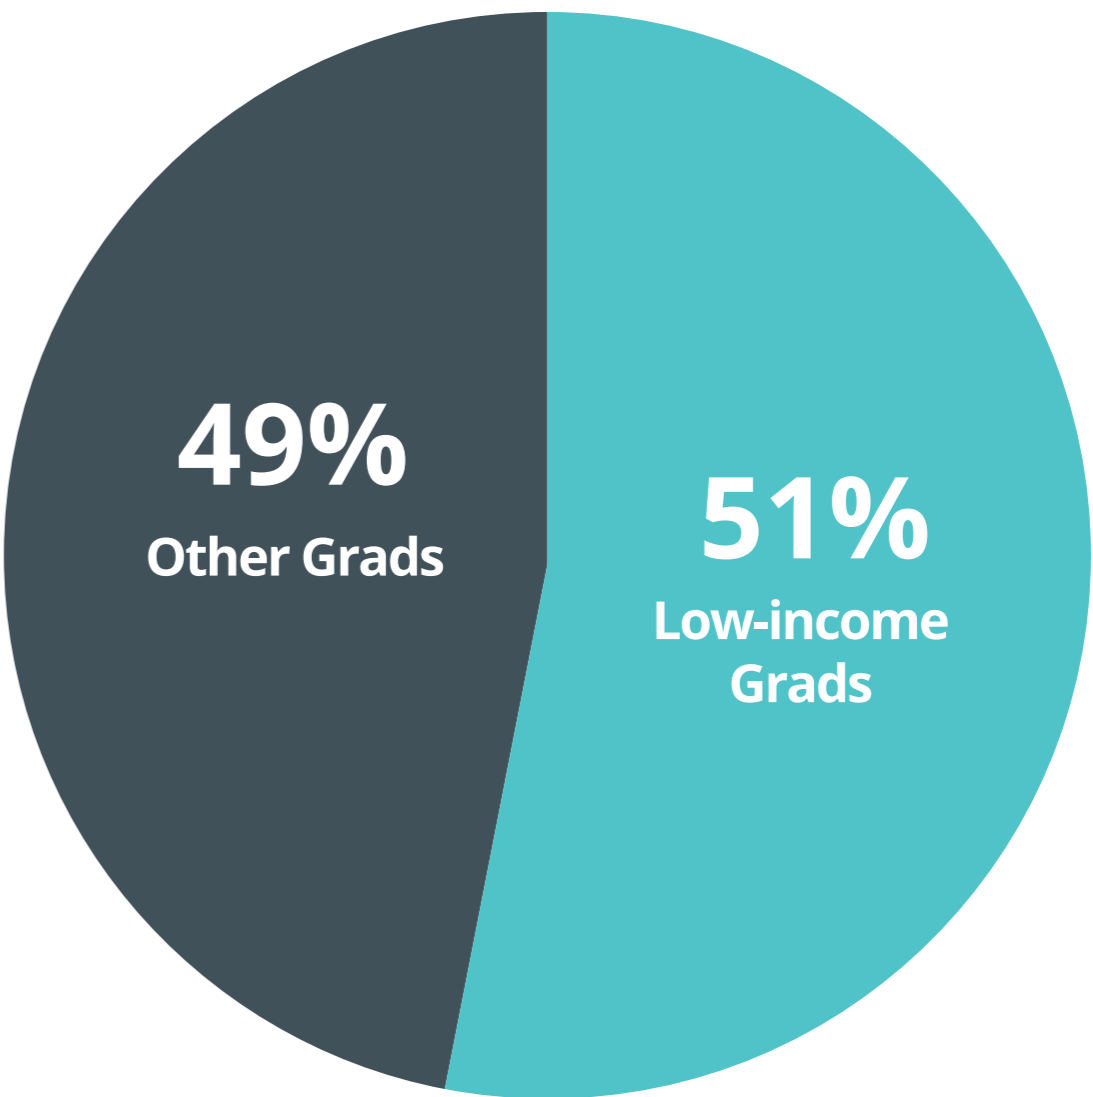

# Progress Toward Goal

More than half (about 51%) of the additional UIA graduates over the 2012-13 baseline graduation rates are low-income students. These students were Pell-eligible at the time of admission.

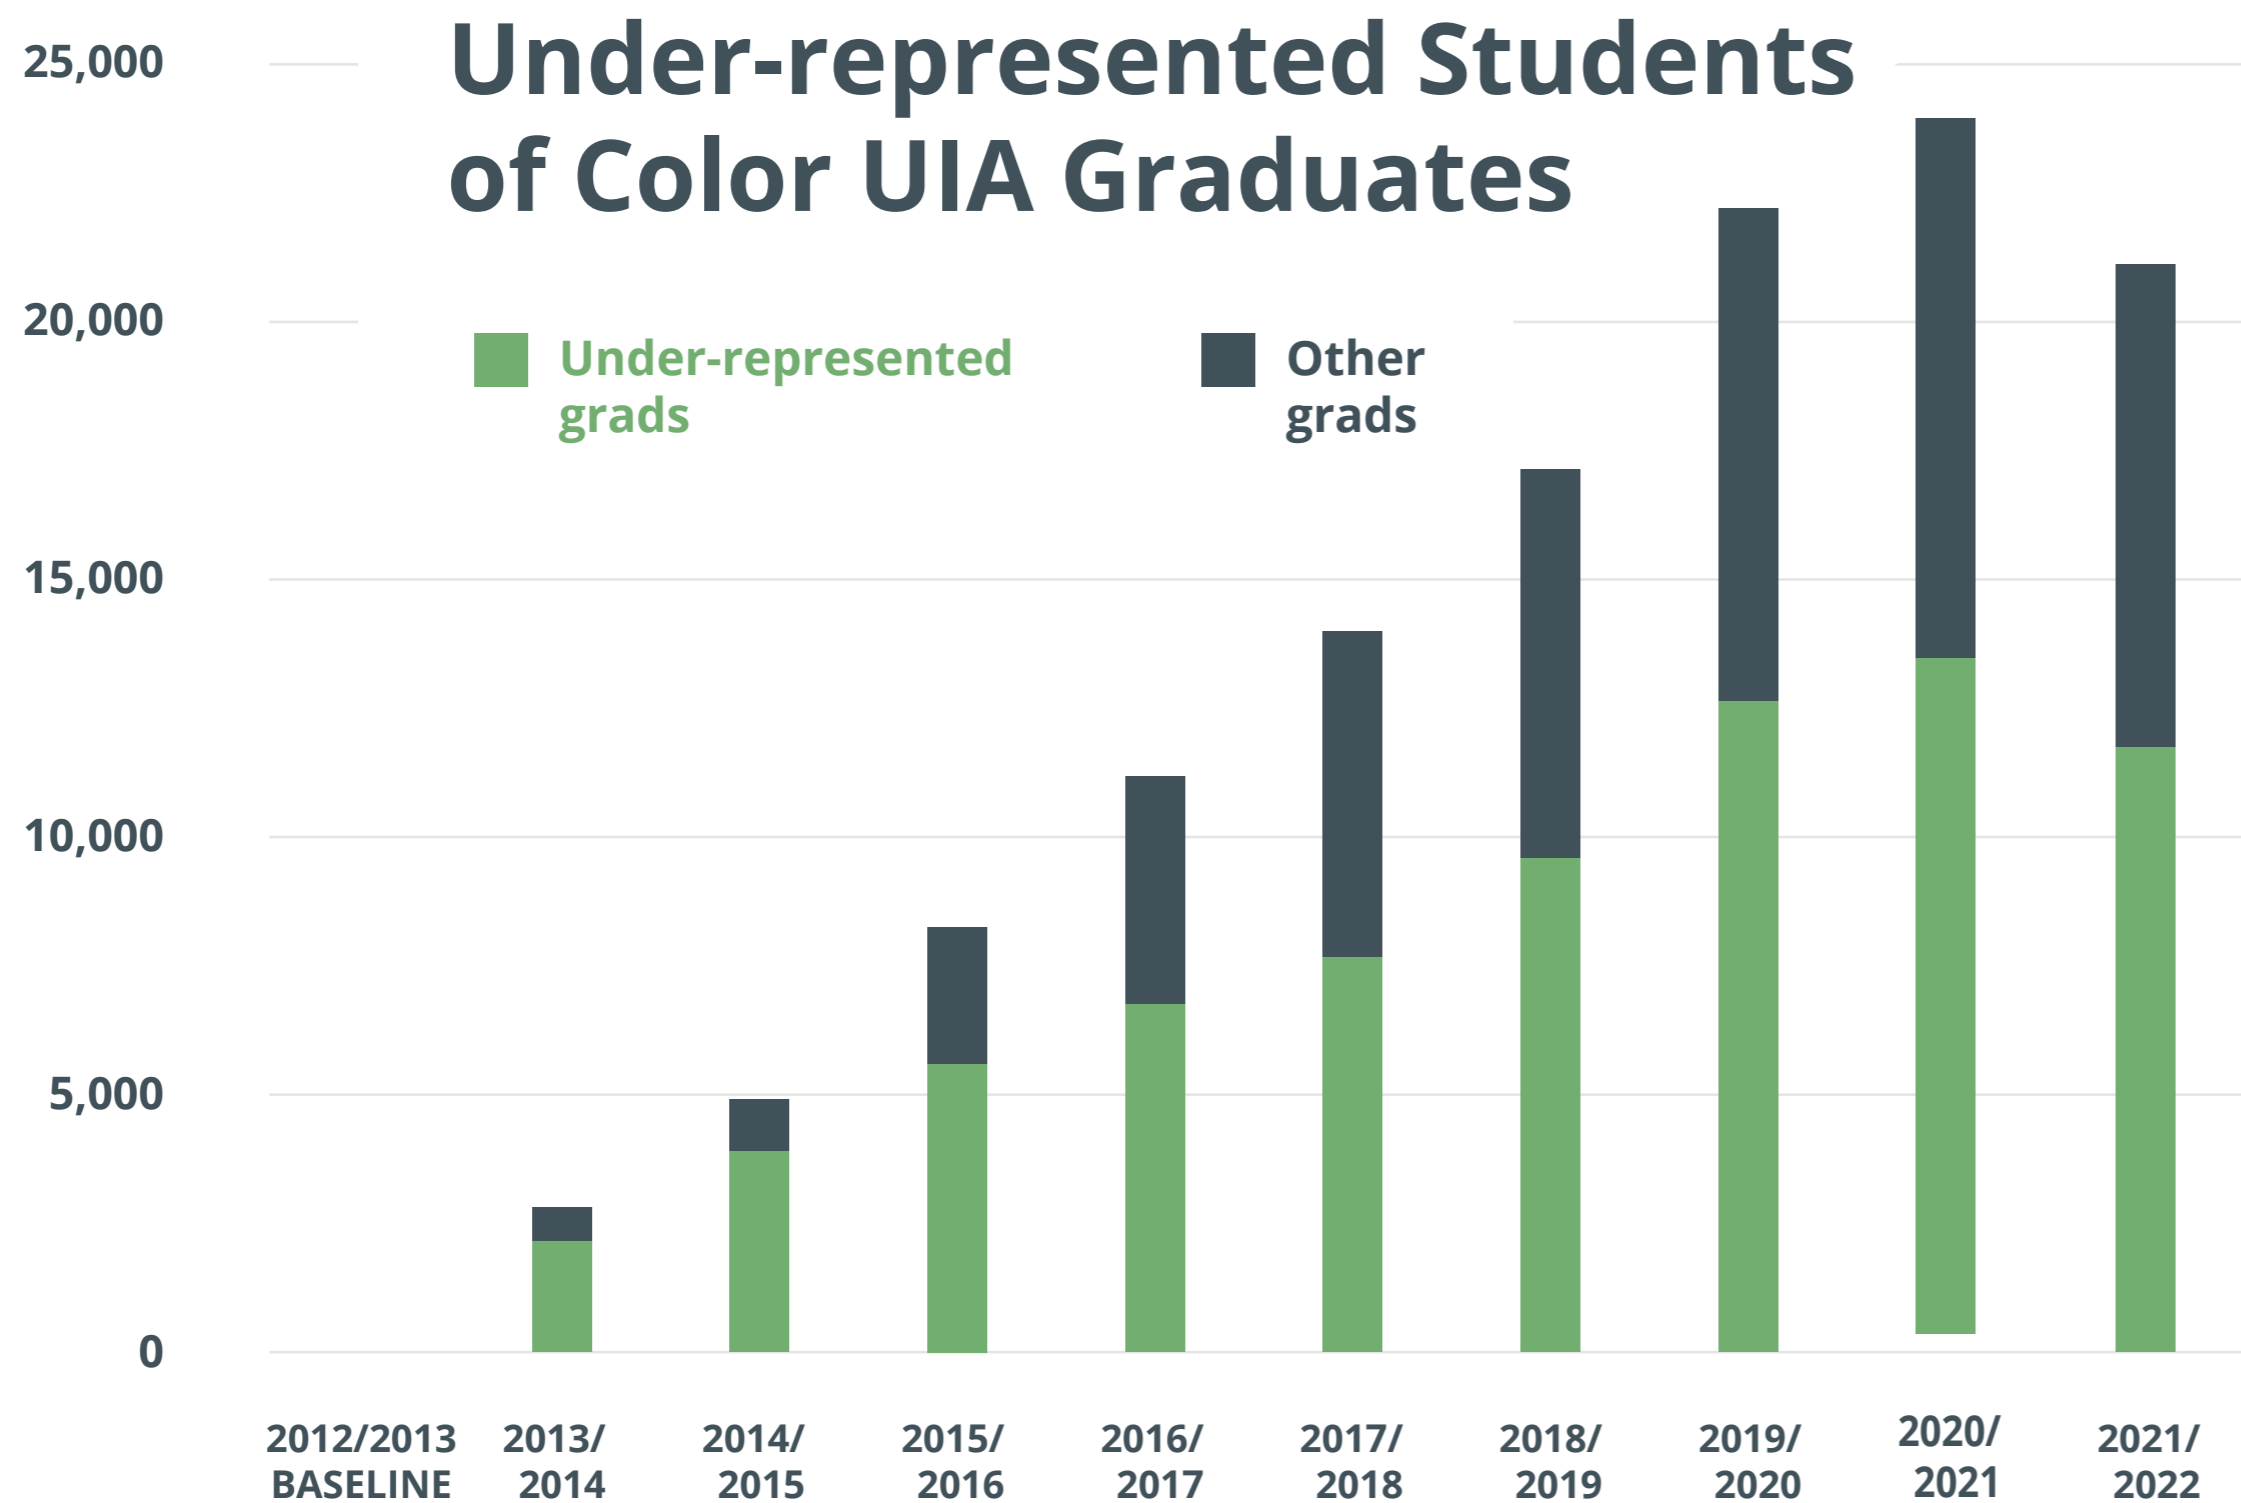

### Nine Years of Additional Graduates

# Progress Toward Goal

Under-represented students of color graduates make up nearly 60% of the additional graduates from the UIA since 2012-13. This includes students who identify as Black, Hispanic, Native American, Pacific Islander, or two or more races.
